CEO MESSAGE

Supporting Civil, Mechanical and Manpower Requirements

At Mahids Gulf Contracting Company Ltd., our focus is to support project requirements through civil works, mechanical works, pipeline works, finishing works, maintenance services and manpower supply.

Our service scope has been structured to address different requirements across construction and technical project activities while providing the manpower categories needed for site execution.

We aim to approach every requirement with responsibility, coordination and professional project support.

We value the opportunity to work with clients and support their requirements through practical contracting and manpower solutions.

ABOUT THE COMPANY

Contracting and Manpower Support Across Multiple Project Disciplines

Mahids Gulf Contracting Company Ltd. provides contracting and manpower supply services from Dammam, Saudi Arabia.

The company supports requirements covering civil and structural works, architecture works, mechanical works, finishing works, pipeline works, maintenance works and manpower supply.

This multi-service scope allows MGC to present its civil, mechanical, construction and workforce capabilities under one company profile while keeping each service discipline clearly defined.

Our manpower services include engineering, supervision, safety, civil trades, mechanical trades, electrical trades, HVAC trades and general labour categories according to project requirements.
